

(Toronto, Ontario, October 11, 2018) – Galway Metals Inc. (TSX-V: GWM) (the “Company”) is pleased to announce that Debbie G. Laney, P.Eng, has agreed to act as a technical advisor to the Company, assisting in guiding the advancement of Galway’s high grade Estrades zinc-gold and Clarence Stream gold properties to optimize their full potential.

“We are pleased to have added such an accomplished Metallurgical Engineer to our team and would like to take this opportunity to welcome Debbie aboard,” cites Robert Hinchcliffe, President and CEO of Galway Metals. “We are committed to advancing our projects and are assembling a team capable of finding, developing and running mines. Debbie certainly brings a wealth of industry knowledge and experience in metallurgical engineering, which is a crucial component of that goal.”

Mrs. Laney has over 30 years of experience as a Metallurgical Engineer in the United States and overseas covering all facets of the metallurgical/mining industry. Debbie has extensive knowledge of oxide, sulphide and refractory processing of gold, silver, copper, and polymetallic ores. She provides engineering and management oversight for field trials and pilot plant studies; develops detailed process designs for feasibility studies and provides data analyses for successful full-scale production plants. Debbie holds both Bachelor and Master of Science Degrees in Metallurgical Engineering from Montana Tech of the University of Montana and is a licensed Professional Engineer in Nevada and Arizona. She is a member of SME, CIM, MMSA, and CMP. She is on the advisory board for the Women’s Mining Coalition and a member of the PE exam committee for SME. Throughout her career Debbie has worked for both small and large mining companies, chemical companies and research firms.

Mrs. Laney joins Mr. Duncan Middlemiss, P.Eng, who is also an advisor to the Company. Mr. Middlemiss is President, Chief Executive Officer and Director of Wesdome Gold Mines Ltd. (TSX:WDO) (“Wesdome”). He is on the board of IDM Mining (TSX-V: IDM), helping to guide its Red Mountain project toward production. Prior to joining Wesdome, he was President, Chief Executive Officer and Director of St. Andrew Goldfields Ltd. (“SAS”) until its acquisition by Kirkland Lake Gold Inc. in January 2016. In 2002, he joined Foxpoint Resources (now Kirkland Lake Gold Inc.) where, as Engineering & Production Manager and later as Mine Manager, he was instrumental in all facets of production at Kirkland Lake Gold’s Macassa mine from early developments to incorporating large new discoveries into the mine plan. Later Mr. Middlemiss was responsible for implementing mine and processing expansions toward the robust producer it has become. Mr. Middlemiss is a native of Kirkland Lake, Ontario, and has extensive experience in the mining of gold deposits in the Abitibi Greenstone Belt.

About the Company

Galway Metals is well capitalized with two projects in Canada: Clarence Stream, an emerging gold district in New Brunswick, and Estrades, the former producing, high-grade VMS mine in Quebec. The Company began trading on January 4, 2013, after its successful spinout to existing shareholders from Galway Resources following the completion of the US\$340 million sale of that company. With substantially the same management team and Board of Directors, Galway Metals is keenly intent on emulating a similar level of success.

CAUTIONARY STATEMENT: Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy of this news release. No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein.

This news release contains forward-looking information, which is not comprised of historical facts. Forward-looking information involves risks, uncertainties and other factors that could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward-looking information in this news release includes statements made herein with respect to, among other things, the Company's objectives, goals or future plans, potential corporate and/or property acquisitions, exploration results, potential mineralization, exploration and mine development plans, timing of the commencement of operations, and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to, exploration results being less favourable than anticipated, capital and operating costs varying significantly from estimates, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, uncertainties relating to the availability and costs of financing

needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, risks associated with the defence of legal proceedings and other risks involved in the mineral exploration and development industry, as well as those risks set out in the Company's public disclosure documents filed on SEDAR. Although the Company believes that management's assumptions used to develop the forward-looking information in this news release are reasonable, including that, among other things, the Company will be able to identify and execute on opportunities to acquire mineral properties, exploration results will be consistent with management's expectations, financing will be available to the Company on favourable terms when required, commodity prices and foreign exchange rates will remain relatively stable, and the Company will be successful in the outcome of legal proceedings, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information contained herein, whether as a result of new information, future events or otherwise, except as required by applicable securities laws.
