

North Zone Significantly Expanded by Drilling Anomalies

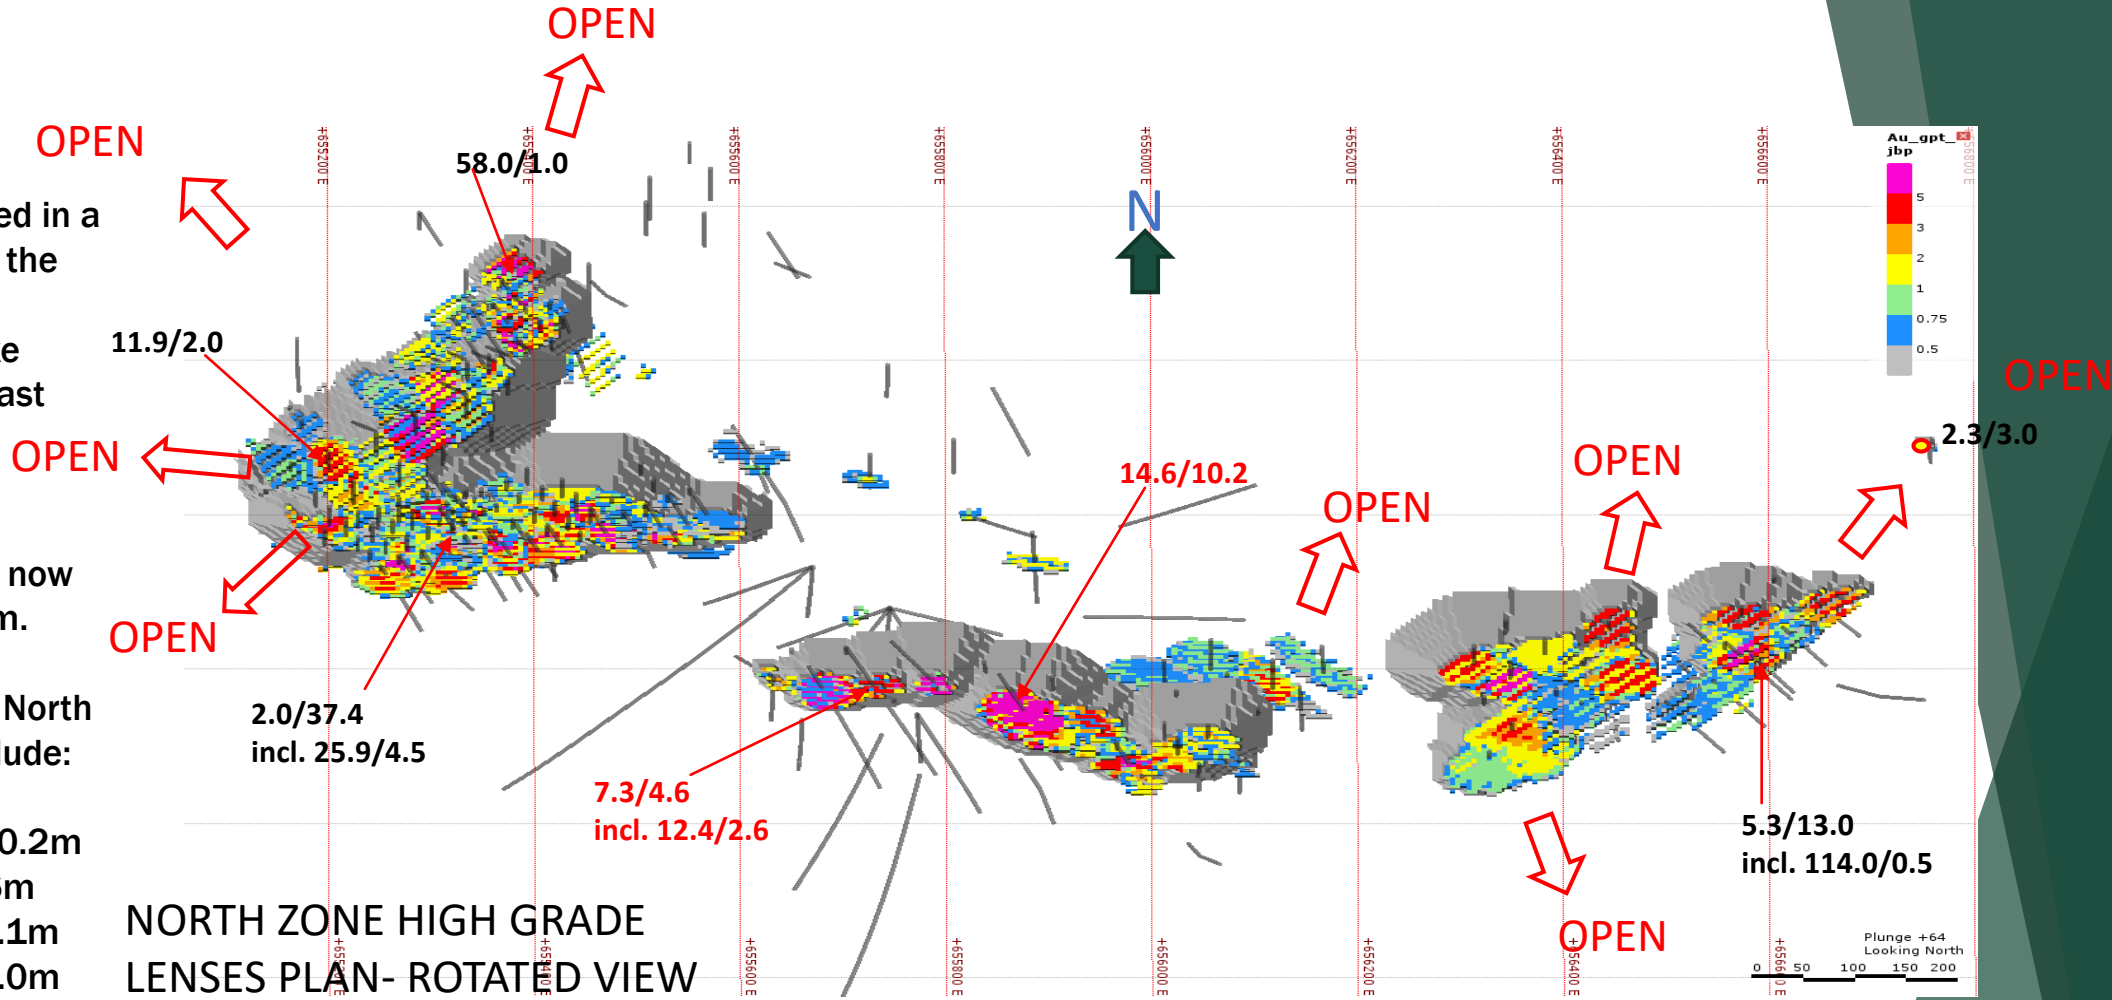

Step out drilling resulted in a more than doubling of the North Zone Resource and extended the strike length to the SE and East 1.25 km.

Total length of the mineralized corridor is now 1.6 km, up from 320 m.

Highlights of Galway's North Zone drill program include:

- 14.6 g/t Au over 10.2m
- 7.3 g/t Au over 4.6m
- 16.6 g/t Au over 2.1m
- 2.8 g/t Au over 14.0m
